COMPANY OVERVIEW

Accentus AI LLC helps government agencies, defense organizations, and regulated enterprises securely adopt artificial intelligence, modernize mission systems, strengthen cybersecurity, and transform enterprise information into operational advantage. We specialize in secure AI implementation, cloud modernization, cybersecurity, enterprise knowledge management, operational intelligence, and digital transformation initiatives designed for organizations that require governance, accountability, compliance, and operational control.

MISSION IMPACT

- ✓ Accelerate access to institutional knowledge
- ✓ Improve workforce productivity
- ✓ Improve compliance visibility and oversight
- ✓ Reduce operational and cybersecurity risk
- ✓ Improve organizational agility
- ✓ Reduce administrative workload through automation
- ✓ Strengthen mission decision-making
- ✓ Modernize legacy systems and workflows
- ✓ Deploy AI responsibly and securely

CORE CAPABILITIES

AI & KNOWLEDGE INTELLIGENCE

Enterprise AI Strategy | Secure Generative AI | AI Readiness Assessments | AI Governance Frameworks | Knowledge Intelligence Platforms | Intelligent Search & Discovery | Document Intelligence | Operational Intelligence | Decision Support | Responsible AI

Outcomes: *Faster information retrieval | Improved analyst productivity | Reduced manual processing | Enhanced situational awareness*

CLOUD MODERNIZATION & DEVSECOPS

AWS Cloud Engineering | Microsoft Azure Engineering | Hybrid Cloud Architecture | Infrastructure as Code | Kubernetes & Containerization | CI/CD Automation | DevSecOps | Application Modernization | Cloud Security Architecture | Platform Engineering

Outcomes: *Faster deployments | Reduced operational costs | Improved scalability | Stronger security posture*

CYBERSECURITY & ZERO TRUST

Zero Trust Architecture | NIST 800-53 Alignment | NIST 800-207 Implementation | Vulnerability Management | Security Assessments | Continuous Monitoring | Compliance Readiness | ATO Support | Risk Management | Security Engineering

Outcomes: *Reduced cyber risk | Improved compliance posture | Increased operational resilience | Enhanced security visibility*

DATA ANALYTICS & DECISION SUPPORT

Data Integration | Data Engineering | ETL/ELT Development | Business Intelligence | Dashboard Development | Data Governance | Reporting Automation | Predictive Analytics | Executive Decision Support

Outcomes: *Faster reporting cycles | Better operational visibility | Improved data quality | More effective decision-making*

AegisAI™ — Secure AI for Mission-Critical Environments

Secure AI platform designed for government agencies and regulated organizations requiring governance, traceability, accountability, and operational control.

- Secure Enterprise Knowledge Retrieval
- Role-Based Access Controls
- Governance Workflows
- Human-in-the-Loop Oversight
- Source-Cited AI Responses
- Policy-Aware AI Interactions
- Audit Logging & Traceability
- Private AI Deployment Options

Benefits: *Accelerated research & analysis | Improved knowledge accessibility | Increased workforce efficiency | Enhanced information security | Improved governance*

WHY ACCENTUS AI

- ✓ Active SAM-Registered Small Business
- ✓ Secure AI & AI Governance Focus
- ✓ NVIDIA Inception Program Member
- ✓ AWS & Azure Cloud Expertise
- ✓ Zero Trust Security Alignment
- ✓ NIST-Based Security Practices
- ✓ Agile Delivery Methodology
- ✓ Mission-Focused Technology Solutions
- ✓ Prime Contractor Teaming Ready
- ✓ Executive-Level Program Leadership

TARGET MARKETS

- › Department of Defense (DoD)
